Summary

QA Automation Engineer with 5 years of experience specialising in **Playwright/TypeScript**, **BDD/Cucumber**, and **CI/CD** integration.

Reduced CI pipeline execution time by **44%** at PMU through test parallelization across **4 agents**. Proven track record defining **test automation strategies**, building **end-to-end test frameworks** from scratch, and driving **shift-left quality practices** across retail, banking, and real-time environments. Autonomous in delivery, adaptable across sectors, and effective collaborating with dev, product, and tech leadership. **ISTQB certified**. Available immediately as a **freelance consultant**.

Experience

PMU

Paris, France

QA Platform Engineer - Freelance

January 2026 - May 2026

QA technical reference embedded across multiple product teams on a high-availability, real-time betting platform, driving end-to-end test quality and continuous delivery standards.

- Owned and maintained the Playwright test infrastructure for a real-time betting platform, ensuring environment stability during peak load (live races)
- Optimized GitLab CI pipelines via parallelization across 4 agents, cutting E2E suite runtime by 44% (90 -> 50 min) and halving developer feedback loops
- Configured automated test reporting and notification mechanisms for real-time pipeline visibility; co-owned framework versioning and deployment with the tech lead
- Built quality metrics dashboards tracking PI ticket velocity and test coverage across 2 QA teams, enabling weekly reporting to tech leadership in a multi-team SAFe environment
- Mentored QA engineers and delivered CI/CD training to 2 QA teams (versioning, pipeline integration, alerting)

Stack : Playwright · TypeScript · GitLab CI · Parallelization · SAFe · PI Planning · Test reporting · CI/CD

Carrefour

Massy, France

Quality Assurance Engineer, Automation

January 2024 - December 2025

QA Automation Lead on the PRISM electronic invoicing project (XML/UBL), responsible for use case validation, test design and execution (UI/API/DB), and the implementation of automated test suites in CI/CD (Jenkins/GitLab).

- Defined and implemented a BDD test strategy aligned with acceptance criteria of 6 user stories per sprint
- Automated 1200+ API test cases with Karate, reducing manual regression time by ~70% and catching 15+ integration defects pre-production
- Designed and executed performance tests with Gatling; improved response times by 3x on e-invoicing module
- Maintained and scaled 200+ automated UI tests via Selenium/Cucumber, sustaining 85% regression coverage across 3 sprint cycles with zero production regressions.
- Leveraged GCP (Cloud Storage, BigQuery, Cloud SQL) for test data management and pipeline observability, reducing test environment setup time and improving defect traceability.

Stack : Selenium · Cucumber · BDD · Karate · Gatling · Jenkins · Jira · Xray · GCP · Cloud Storage · BigQuery · Cloud SQL · Page Object Model · REST API

Axe Finance

Tunis, Tunisie

Quality Assurance Engineer, Automation

June 2021 – December 2023

QA Automation Engineer on banking systems, in charge of test strategy, Katalon-based regression automation, and test data management for loan origination and management modules.

- Defined test strategies and modeled functional flows for core banking modules (loan origination, loan management)
- Designed 150+ automated test cases using Katalon Studio, achieving 60% regression coverage
- Managed test data via SQL Server: datasets, mocks, and stubs across 3 test environments
- Reduced post-deployment regression cycle from 4 days to under 4 hours through automated non-regression suites
- Tracked and qualified defects end-to-end using Jira, providing reproducible bug reports to dev teams

Stack : Katalon Studio · SQL Server · Postman · Swagger · Jira · BDD · Mocks/Stubs · Banking domain · Non-regression testing

Projects

Playwright BDD Starter Framework

Open-source end-to-end test framework built with Playwright, TypeScript, and BDD/Cucumber, featuring GitHub Actions integration, parallel execution, and HTML reporting.

Stack : Playwright · TypeScript · Cucumber · GitHub Actions · Page Object Model

Education

Institute of High Commerce Studies of Carthage - IHEC

Bachelor degree

Information Technology

Tunis, Tunisia · 2021

Relevant coursework: Software Testing, Database Management, Web Development.

Certification

ISTQB CTFL

30/03/2023

GASQ

Skills

UI & E2E Automation

Playwright, Selenium WebDriver, Cucumber, BDD/Gherkin, Page Object Model, Cross-Browser Testing, End-to-End Testing

CI/CD & DevOps

Jenkins, GitLab CI, Git / Versioning

Performance Testing

Gatling, Load Testing, Stress Testing, Response Time Analysis

Working methodologies

Agile, Scrum, SAFe

API Testing

Karate, REST API, API Automation, Postman, Swagger

Test Strategy & Quality

Test Planning, Test Management, Regression Testing, Shift-Left Testing, Defect Lifecycle Management

Cloud & Infrastructure

Google Cloud Platform (GCP), Cloud Storage (GCS), Cloud SQL, Cloud Monitoring, BigQuery

Management & Reporting

Jira, Xray, Azure DevOps

Programming Languages

Java, TypeScript, Bash

Languages

French

Fluent

English

Fluent
